Savannah National Wildlife Refuge

Jasper County, South Carolina

Effingham County and Chatham County, Georgia

Savannah is one of over 500 National Wildlife Refuges. The primary objective of a National Wildlife Refuge is to provide habitat for the conservation and protection of all species of wildlife. The harvest of surplus animals is one tool used to manage wildlife populations at a level compatible with the environment, provide recreational opportunities, and permit the use of a valuable resource.

Public hunting on the Savannah National Wildlife Refuge is permitted on approximately 19,000 acres. Certain areas (marked on the map printed on the reverse side) are closed to hunting.

The regulations listed below supplement the general regulations which govern hunting on wildlife refuge areas as set forth in Title 50, Code of Federal Regulations. Hunting will be in accordance with applicable State (Georgia and/or South Carolina) regulations. **All Coast Guard and State boating regulations will be enforced.**

General Hunting Regulations

Permits are required for all hunts and must be carried on the person while hunting.
